Caucuses were held in several of the districts last night to arrange for the struggle on Monday. Most of them were held at private residences, and those in charge declined to give out anything of the proceedings for publication. There was an exception, however, in the case of the caucus in the twenty. tieth district, which met at the office of F. A. Grant & Co., corner of Third and East Capi-

At this meeting, on motion of Michael At this meeting, on motion of Michael Robinson, the chairman was instructed to appoint a committee of three to select the nominees as delegates to the district convention. Mr. Robinson not being able to serve on the committee, Mesars. T. McMahon, J. M. Shomo, and Charles Moore were appointed as the committee, which will report at an adjourned meeting this evening at 8 clock at the same place. the platform of the republican party a plank giving the right of suffrage to the people of the District of Columbia. This seemed to be the sentiment of all present. There is a prevailing impression that there will probably be opposition primaries in a large number of the districts. This, it is alleged, has been arranged beforehand by friends of several of the candidates, and if carried out it is thought that much trouble

will be the result.

Each district will elect five delegates and three alternates. There are in the District of Columbia twenty-two districts. This will make the total number of delegates at the Willard ball convention 110, and fifty-six

willard hall convention 110, and fity-six votes will therefore be necessary to a choice. The voters at the primary elections must be bena fide residents of the district.

The friends of Dr. Adams assert that he will carry from eleven to fifteen districts, and have a majority in the convention of somewhere near seventy-five votes—a majority of nincteen. On account of the bitter feeling now existing it is thought several of the primaries will be held on street corners or on open fields.

A QUIET WEEK.

The Social Whirl Has Not Been at All Maddening.

A Few Receptions and Parties-Personal

Gen. Grant has steadily declined all dinner invitations and hospitalities during his stay, but has made great progress under Prof. Nissen's treatment during these weeks. His imprompts reception and ovation at the house of representatives on Wednesday was one of the pleasant features of his visit here. Mrs. Grant was entertained at luncheon on Tuesday by Mrs. Sheridan, and on Thursday Mrs. Frelinghuysen gave a lunch party of twenty in her honor. Mrs. McElroy has invited a number of ladies to meet Mrs. Grant at a lunch party at the white house to-day at 1:30 o'clock.

at a lunch party at the white house to-day at 1:30 o'clock.

Mr. Edonard Remenyl, who is a valued friend of Cel. Ingersoll and his family, has been his guest for several days of this week, and as the conclusion to the series of entertainments that have marked his stay a reception was given him by his hest last evening. The violinist was in his beat mood, and gave exquisite renditions of Schubert's "Avo Maria," a polonaise, mazourka, and nocturne of Chopin's, several little Hungarian airs, and Audalusian dances. Among those present were Secretary and Mrs. Chandler, Mrs. Kinsley, Postmaster General Gresham, Mr. and Mrs. Blaine, the German minister and Mrs. John B. a tour of the world.

The senatorial party that went to Florida last week have returned, after a delightful trip. The company included Senator Jones of Florida, Senator and Mrs. Ingalls, Senator and Mrs. Ingalls, Senator and Mrs. Manderson, and Senator Sawyer. Mrs. Sawyer did not accompany her husband, as stated in the papers, but has remained at her residence here and is still under treatment for her rheumatism. Her daughter, Mrs. Howard White, has made a slow progress toward recovery during the past month, but is still confined to the house. Mrs. Sawyer will go to her Wisconsin home early in May if the season permits.

Mrs. Miller, and, her daughter, Miss Deva.

Mrs. Miller and her daughter, Miss Dora, received quite a number of callers informally on Thursday. A low toa table was placed in the alcove off the drawing room, and Miss Miller presided over her large samovar and the quaint teanet, from which she poured rare mandarin tea. Her tea tray is now embellished by some handsome gold spoons of Russian make, richly decorated with enamel and nielle work, and differing each in design. The younger circles in society have had

The younger circles in society have had several gay little evenings during these Lenten weeks under the plea of charity. The sewing class met on Monday evening at Miss Casey's, and, after an hour or so at the needle, finished off the meeting in gayer fashion. On Thursday evening the nimble needlewomen met at Miss Morgan's and combined duty with pleasure by judicious alteration.

Mr. George Riddle's readings have been among the interesting events of this week. On Monday evening Commissioner and Mrs. Loring gave up their parlors to him, and a most appreciative audience listened to his wonderful interpretations. On Thursday evening there was a larger company gathered in Senator Hill's drawing room to hear Mr. Riddle.

A pleasant little company went to Mount Vernon yesterday on one of the steam launches from the navy yard, and spenta few hours at the old mansion. The party in-cluded Representative and Mrs. Skinner, Mrs. Armstrong, the Missos Hubbard. Miss Chip-man, Miss Thomas, Miss Hopperton, Messrs. Everett, Moore, and Lambert.

Gen. and Mrs. Hazen gave a dinner party in honor of Mr. Remenyi on Thursday, and after the dinner a musicale was held, at which the great violinist played several times. Gen. Hazen crossed the ocean with Remenyi on the first trip that the gifted Hungarian made to this country. Mrs. Caroline H. Dall, of Georgetown

who have spent another pleasant winter at the Ebbitt, will leave here on Monday for the north. They will summer at Bethlehem Pa., and return in the fall to fix upon a winter residence here.

Licut. and Mrs. Danenhower will go to New York next week, Licut. Danenhower having been ordered there to join the Minne-sota and take his first active duty since leaving the Jeannette. Hon. Hugh McCulloch and his family will

move to their country place, nine miles north of the city, next week. Miss Louise Mc-Culloch is now visiting friends in New York

Mrs. Hallet Kilbourn entertained a few friends in her parlors at the Portland Thurs-day evening. Singing and recitations formed leading attractions.

Miss Slocum goes to New York Easter week to be bridesmaid at a friend's wedding, and will spend some time north before returning

The old Whist club has been revived, after many years' neglect, and the first gatheris was held at Gen. Meigs's house last night. Col. Ingersoll has been quite ill with a neuralgic affection this week, and for several days has been confined to the house.

The German minister and Mme. von Eisendecker gave a breakfast party in honor of Mr. Remenyi on Wednesday.

Another sign of the sesson is the blooming of the large magnelia tree in Franklin square. Representative Beach and family have gone to Baltimore for a short stay.

Mrs. Hazen's sister, Mrs. Buer, went to Cincinnati this week.

Mrs. Kotcham gives a ladies' lunch party Palais Royal Opening.

The grand opening of the Palais Royal, which closes to-day, has been very successful, and the management is more than pleased with the result. The spacious stores were crowded all day yesterday, and the rich display merited the attention it received. All new spring styles are to be seen in profusion, and the prices are remarkably low. The management has been making a specialty of gloves and parasols and all the different styles gloves and parasols and all the different styles and colors can be seen there. A novelty in the way of gloves is the Mother Hubbard style of pure French silk, which is unique and pretry. The coaching parasol takes the lead in that line, and they are to be had at the lowest prices. The spring millinery, dress goods, and ladies furnishing departments are complete in every detail, and are well worth inspection. The management announce to-day as the clesing, and every lady should visit the Palais Royal.

TWO MEN DROWNED.

The Gale Playing Havon Among the Fishing Craft on the Potomuc.

The gales on the past few days were accompanied by fatal results down the Potomac river among the fisheries. From information received here late last night it appears that shortly after sunset of Thursday evening, and while the wind was blowing a gale, two gill fishing beats were overturned off Liverpool Point, Md., forty miles below this city. Two colored men, named Baily Jackson and Bonds, in one of the boats, were thrown into the feaming river and found watery graves, after a terrible struggle for life. Two colored brothers named Jackson, in another gill boat, were thrown into the river during the storm. The latter clung to the side of their boat and were driven ashore by the force of the wind in a half frozen condition. It is also reported that many gill nots were badly damaged by the wind and water, which at times was lashed into high, white capped billows. fishing beats were overturned off Liverpool

The Cuban Fillbusters. Secretary Frelinghuysen, Secretary Chand-ler, and Acting Secretary French had a brief

conference yesterday afternoon in regard to the alleged filibpstering expedition against Cuba organized at Key West. It was stated that the collector of customs at Key West, and the commanders of the revenue cutters Dix and Boutwell, and of the United States steamers Vandalia, Swatara, and Vantic had been advised of the reported violation of the neutrality laws, and directed to use every effort to intercept the offenders. The three naval vessels are now on their way to Cuban waters, as is also one of the revenue steamers, in hopes of finding the schooner Shoters. Story of the Way in Which a Supreme Court Judge "Found" \$20,000. "Gath's" Broadway No

An instance of being saved by one's friends is related of one of the judges of the state supreme court who several years ago was a lawyer and not in very thriving circumstances, and whose partner was in the habit of borrowing his notes or his indorsement and putting it into the bank to raise money. One of the bank officers overhauled the future judge one day and said: "There is a note of judge one day and said: "There is a note of yours which has been several times renewed at our bank and has finally gone to protest; it amounts to \$7,500, and you must send me down some collateral for it." The lawyer exclaimed that he had not had any benefit from the loan, but that he recognized the obligation, and he said: "If I get this nomination for supreme judge I will break up that partnership." The idea never crossed the bank officer that there was any judgeship in his friend. In a day or two the lawyer came down to the bank with about one hundred shares of street car railroad siesek; worth at down to the bank with about one hundred shares of street car railroad shoek; worth at that time in the neighborhood of sixty cents on the dellar, or in all, perhaps, \$6,000, but considered very precarious stuff. The banker took it, and being a slow and cautious man, he watched it and meantime the other was elevated to the bench. Several years passed on, and finally there were dividends on the stock, which, by the way, was in the Dry Dock and East Broadway line. The dividends were carefully collected and applied to the note. After some years there was a rise in the stock, and then the banker sent word to the judge on the bench not to dispose of that the stock, and then the banker sent word to the judge on the bench not to dispose of that stock. The judge was frightened; he thought the stock had been long ago confiscated for the protested note, and he sent a friend down to the bank to ask what the notification meant. The banker in ashort time sent the judge nearly \$20,000 as his due on this con-served stock after subtracting the note and interest. In that way money is made her interest. In that way money is made by men who know how for men who do not

ROBUST HEALTH

Is not always enjoyed by those who seem to possess it. The taint of corrupted blood may be secretly undermining the constitution. In time, the poison will certainly show its effects, and with all the more virulence the longer it has been allowed to permeate the system. Each pimple, sty, boil, skin disorder and sense of unnatural lassitude, or languor, is one of Nature's warnings of the consequences of neglect.

Ayer's Sarsaparilla

Is the only remedy that can be relied upon, in all cases, to eradicate the taint of hereditary disease and the special corruptions of the blood. It is the only alterative that is sufficiently powerful to thoroughly cleanse the system of Serofulous and Mercurial impurities and the pollution of Contagious Diseases. It also noutralizes the poisons left by Diphtheria and Scarlet Fever, and enables rapid recuperation from the enfeeblement and debility caused by these diseases.

· Myriads of Cures

Achieved by Ayen's Sarsaparilla, in the past forty years, are attested, and there is no blood disease, at all possible of cure, that will not yield to it. Whatever the ailments of this class, and wherever found, from the scurvy of the Arctic circle to the "veidt-sores" of South Africa, this remedy has afforded health to the sufferers by whom it was employed. Druggista everywhere can cite numerous cases, within their personal knowledge, of remarkable cures wrought by it, where all other treatment had been unavailing. People will do well to

than AYER'S SARSAPARILLA. Numerous crude mixtures are offered to the public as "blood purifiers," which only allure the patient with the pretense of many cheap doses, and with which it is folly to experiment while disease is steadily becoming more deep-seated and difficult of cure. Some of these mixtures do much lasting harm. Bear in mind that the only medicine that can radically purify the vitiated blood is
